

## Satisfied with In Progress Courses Status

When Degree Tracker launched in October 2018, in-progress (IP) Courses used to satisfy requirements were considered “completed”, which collapsed requirement categories where these courses were present. On March 18, 2019, the Degree Tracker team implemented an enhancement to show a new status – “Satisfied with In-Progress Courses” – which will automatically expand requirement categories that will be completed once a student satisfactorily passes currently in-progress courses. This new status will also appear on the Summary Report with a yellow diamond icon. This enhancement will remind users that IP courses still need to be completed with satisfactory grades in order to fulfill graduation requirements.

The examples below show the differences in how in-progress courses were displayed both before and after the enhancement.

Previous Report without Enhancement	After Enhancement																																																																																																																																																																																																						
<p><b>Requirement line is satisfied and collapsed</b></p> <p>Area VII Humanities, Arts, Language (RQ 1677)</p> <p><b>Satisfied:</b> Complete two sequential HAL courses in a single foreign language.
