

DEGREE TRACKER DIGEST

Spring 2025

Website Updates

We are in the process of updating our web pages with more current information! We have two Degree Tracker pages: [one for faculty and staff](#) and [one for students](#). Updated FAQs and PDF Resources will be available soon. Updated videos are coming later this spring. Please bookmark these pages and check back!

Exceptions Guidelines

Do you enter exceptions (a.k.a. substitutions) in Degree Tracker? The Office of the University Registrar would like to bring to your attention some best practices in this very important responsibility. Please review the new [Exceptions Guidelines document](#) (soon to be on our updated web page) and contact us with any questions.

Degree Tracker is a trusted source.

“The Department of Environmental Sciences is tremendously grateful for the work of the Degree Tracker Team. The team’s responsiveness to questions is unparalleled at Emory. ... For our students, the Degree Tracker summary is a trusted source of information that they can refer to when checking the status of their degree.”
